VOLUME 49: NUMBER 43

DIDSBURY, ALBERTA, WEDNESDAY, OCTOBER 24, 1951

\$2.50 a Year; 6c a Copy

## Will Drill Offset Well To Olds-Bailey East of Town

The news last week that an offset well to the Bailey Olds No. 1 big wet gas discovery east of Didsbury will be drilled by Hudson's Bay Oil and Gas and associates, is of paramount importance to this district.

The new location is lsd. 4.9-31-27 with, about two miles southeast of the Bailey discovery well, which is now capped after a 90-day test this summer when it was disclosed that potential was more than 30,000,000 cubic feet of wet gas daily, 700 barrels of naphtha, and a 13 per cent sulphur content.

Cost of the new Hudson's Bay Olds No. 2 well will be carried one-third each by Hudson's Bay, Anglo and Calmont, and the A.G. Bailey group. Participating in the Bailey group will be Selburn Oil Company, Bevco Leduc Olds and Jet Olds each 25 per cent, Sunshine Mining Company 20 per cent, and the Mt. Royal Syndicate of Montreal five per cent, while Bailey has a 10 per cent carried interest.

The area east of Didsbury is considered a "hot" prospect for Devonian oil production and several wells are reported to be scheduled in the vicinity of the Bailey Olds No. 1 well in the near future.

The drilling rig moved onto location on the William McCulloch farm this past week and the well is expected to spud in shortly.

## Speaks At Harmattan

REV. ROBERT CHUNG

Missionary for the Church of the Nazarene, from Seattle, Korea, who will be the main speaker at the gathering to be held at the Church of the Nazarene at Harmattan on Friday, October 26th, at 8:00 p.m.

## Junior Hockey Will Feature Winter Sport

Didsbury and district hockey fans will see some of the best amateur hockey in Canada this winter, according to a recent announcement from the Board of Management of the Didsbury Memorial Arena.

Arrangements have now been completed whereby the Calgary Junior Buffaloes will play their six home games of the Western Canada Junior Hockey League in the Didsbury Memorial Arena. Most of the games will be on Saturday nights, and the first game is scheduled for Saturday, December 22.

According to the schedule now being drawn up the Calgary Buffaloes will play one game at Didsbury against each of the teams in the League, including Medicine Hat, Lethbridge, Edmonton, Moose Jaw, Crow's Nest and Regina. Since this will be first-class hockey the demand for seats is expected to be great, and arrangements are being made to sell reserved seat tickets for the games. Fans wishing to take in all the games will be able to buy the six tickets in advance at a reduced price.

## DIDSBURY HOSPITAL BIRTHS

Born at the Didsbury hospital to Mr. and Mrs. William East of Carstairs on Wednesday, October 17, a girl.

To Mr. and Mrs. Clifford Helgen on Monday, October 22, a boy.

## C.P.R. TRAIN TIMES AT DIDSBURY

**NORTHBOUND:**  
No. 521—(flag stop) 1:10 a.m. daily  
No. 523—Daily except Sunday, 11:32 a.m. (24 minutes later)  
No. 525—Daily at 6:21 p.m.  
No. 527—Daily "Express" 10:00 a.m. (stops only on flag on Sundays)

**SOUTHBOUND:**  
No. 522—Daily 4:52 a.m.  
No. 524—Daily 12:46 p.m. (noon train) 22 minutes later  
No. 526—Daily except Sunday, at 5:13 p.m.  
No. 528—Daily 6:21 p.m. (stops on flag on Sundays only).

## JIM LUFT TAKES OVER MAIL DELIVERIES ON RURAL ROUTES

Vern Gilfric, who has delivered the mail on the rural routes for the past several years, completed his contract last Monday and the new delivery man, Mr. Jim Luft took over the job.

With the change of mail men also came a change in the time mail is to be dispatched from the local post office on the routes. Mail will now leave the local post office on both Routes 1 and 2 at 8:15 in the morning, and the usual delivery days will be maintained.

## \$100 Million Will Be Distributed To Farmers

Trade Minister Howe announced last week from Ottawa that prairie farmers will share this Fall in surpluses of more than \$100,000,000 resulting from the sale of their wheat, oats and barley through the Canadian Wheat Board.

The first payment on barley, will begin immediately and will average slightly more than 18 cents a bushel.

Payments on wheat and oats, the amounts to be announced soon, will begin later, and Mr. Howe hopes the payments will be completed before December 1st.

The payments represent the final clean-up of the pools. The farmers get an initial payment and then, when the grain has been sold and handling charges deducted, the money left over is distributed to the producers as a final payment.

Mr. Howe also stated that the Government does not intend to make an advance payment to farmers for wheat properly stored on their farms.

## Zella Institute Cancels Bazaar; Raffle Turkey

In spite of a blustery winter's day ten members and one visitor met at the home of Mrs. Mike Knights on Thursday afternoon, October 18, for the monthly meeting of the Zella W. I.

The roll call was a way to sort vegetables.

A presentation from Mrs. Roy McNaughton concerning handicraft, was read and voted on.

Mrs. John Hansen presented an agricultural topic, "Good Turn," in contrast to last month's topic, "Alberta's Menace by the Earthworm."

After considerable discussion, it was decided to raffle a bronze breast turkey, most generously donated to the Institute by Mrs. V. Snyder Miller, and dispense with the fall bazaar.

Mrs. V. Snyder Miller won the door prize.

The next meeting will take place on Wednesday, November 15, at the home of Mrs. Joe Ness.

Card parties are to be resumed with Mrs. V. Snyder Miller as hostess at the home of her parents, Mr. and Mrs. E. Lewis, on Thursday evening, October 25. Everyone welcome.

A delicious lunch served by the hostess concluded another pleasant afternoon.

## Calgary Power Ltd. To Organize New Division

Due to the spectacular and rapid development of Alberta's natural resources, Calgary Power Limited has decided to organize an Industrial Development and Research Division to assist and negotiate direct with large Canadian, United States and Overseas corporations who wish to survey the opportunities for the establishment of manufacturing plants in Alberta.

Ever since Calgary Power constructed its first hydro electric plant at Sebec to supply electric power to Canada Cement Plant at Esbaw it has taken a prominent part in attracting basic and secondary industries to the Province of Alberta.

Since 1913 William Anderson, a company official, has been devoting his full time to this important work, not only as Calgary Industrial Commissioner but also on the Alberta Industrial Development Board. Mr. Anderson has been appointed Director of the new division.

It will be the company's policy not only to continue its close cooperation with the large cities but also with the many towns and rural communities throughout the Province. Mr. Anderson, who is a member of the Engineering Institute of Canada, has been able to develop many important contacts in Eastern Canada, United States, United Kingdom and in Europe.

## OPEN HOUSE AT MOUNTAIN VIEW BIBLE COLLEGE OCT. 26

The Faculty and students of the Mountain View Bible College at Didsbury have extended an invitation to the general public to attend the annual "Open House" on Friday, October 26, from 8 until 11 p.m.

There will be a silver tea in the dining room, and visitors will be entertained and shown through the College.

## Another Banded Duck Shot By District Farmer

The ducks seem to have gone south for the winter, but not before Doug Rosewood had a final crack at them, and he succeeded in getting a dandy! A big mallard green head with extra adornment. It had one of the Wildlife Service aluminum bands on its left leg, and Doug has turned in the band to be forwarded to the Wildlife Service for identification.

This is the third banded duck to be reported in the Didsbury district this fall. Mel McEwen brought in the first band and it was sent in for identification. The secretary of the local Fish and Game Association has received a reply on this duck, and it was banded on November 10, 1950, at Anderson's Gravel works, 2 miles east of Ft. Collins, Colorado, by the Colorado Cooperative Wild Research Unit.

The other banded duck was shot by George Clarke on his farm east of town, but no report has so far been received from Wildlife Service.

## Lone Pine Institute Honors Grandmothers

The Lone Pine W.I. met at the home of Mrs. H. Richardson for the October meeting. Silver Thimbles Among the Gold was sung for all Grandmothers present and each one received a small sewing box as a present.

The sum of \$2.00 was given to Jutland, Burnside and Siebertville schools for a magazine subscription, and \$1.00 was sent to Pennies for Peace.

The ladies agreed to supply cakes and help the Girls Club with their dance on November 17th.

A social evening will be held on November 2nd at the Lone Pine hall.

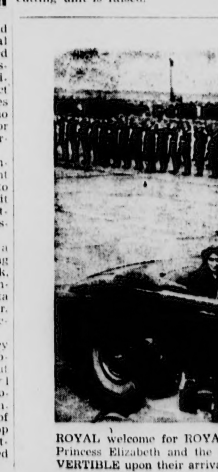

Mrs. G. Rathburn conducted the contest on Know Your Officers of the Provincial W.I. and Mrs. Ede was the winner. The top cent draw netted \$1.50 and Miss Gladys Shell held the lucky ticket.

The next meeting will be held at the home of Mrs. Ruth Eckel on November 10th. It is hoped to have an auction sale at this meeting and also a visit from the constituency convener, Mrs. Gibbs. A good attendance is requested.

## NEW PASTURE RENOVATING MACHINE

A multi-purpose renovating machine has been placed on the market by the C.I.L. Agriculture News. The machine has boots which follows rollers and places either fertilizer and seed under the surface of the pasture with little or no damage to soil. The seed can be applied from one hopper and fertilizer from another.

The machine uses seven cutting boots spaced ten inches apart. Any boot may be removed for wider spacing. When making a turn the cutting unit is raised.

ROYAL Welcome for ROYALTY—An R.C.A.F. Guard of Honour is shown presenting arms while Princess Elizabeth and the Duke of Edinburgh ride by in a CHRYSLER NEW YORKER CONVERTIBLE upon their arrival in Canada at Montreal's Dorval Airport.

## W.A. Evening Group Has Regular Meeting

On Monday, October 22, a very enjoyable meeting of the Evening Group of Knox United Church W.A. was held at the home of Mrs. J. Siannon. There were twenty-two members, two visitors, Mrs. R. Eckel and Mrs. R. Gilfric from the Afternoon Group present.

The devotional exercises were conducted by Mrs. W. Siannon. Mrs. E. Clarke was appointed delegate to attend the Presbytery W.A. to be held in Olds November 9 at the Olds United Church. Ten others also plan to attend.

Arrangements were made to give financial support to the girls' organizations of the church.

The next meeting will be held at the home of Mrs. W. Goelce on November 26.

A delightful lunch was served by the hostesses, Mrs. J. M. Joy and Mrs. Timms, and a social hour was enjoyed.

## Bancroft Institute Will Order Name Plaques

Mrs. F. Hoskins was hostess to six members at the October meeting of the Bancroft Women's Institute, which opened with O Canada and the Creed.

It was decided to take orders for name plaques, and plans were made for a dance to be held in the school in November. Lunch of pie and coffee will be served.

Because of the small attendance there was little new business.

Mrs. R. Good is to be the hostess for the November meeting. The meeting closed with God Save the King, and the members were entertained with piano selections by Alma Swanson and Patricia Hoskins, and a song by Bert and Dorothy Hoskins.

The raffle was won by Alma Swanson.

An interesting demonstration on cake decorating was given by Mrs. G. Hoskins.

The hostess served an enjoyable lunch.

## School Going Bear Reported At Bergen

We have all heard of Mary's lamb that went to school, but Bergen has a school-going bear. Mr. Bear was seen in the school yard by a passer-by while school was in session. We wonder if he was seeking a better education, or perhaps he knew the big snow storm was coming and was looking for some bread crumbs from the children's lunches, or (we hope not) one of the children themselves to fatten himself up prior to hibernating for the long winter. Mr. Bear also visited some of the neighboring farms.

We should be used to it by now, having only one month in the past fourteen without snow, but we still don't like it. The unreasonable weather has given many farmers and ranchers in the district no choice but to cut down on their herds due to feed still uncut and buried under more than a foot of snow. Some are optimistic enough to believe that the snow will go again, but others have their doubts. Some farmers still have potatoes in the ground.

Many flocks of geese and ducks were seen winging their way south ahead of the storm. One especially large flock of geese passed over Saturday afternoon, containing at least a hundred birds which could be heard long after they had passed out of sight.

## MRS. WAUGH AGAIN HEADS LADIES' CURLING CLUB

The annual meeting of the Ladies Curling Club was held in the waiting room of the curling rink on Wednesday, October 17, when Mrs. Gladys Waugh was re-elected president, and Mrs. Edna Wood secretary.

The open house parties were set for Monday and Tuesday, January 21 and 22, 1952.

## Correspondent Says 2 Feel Snow At Westcott

Most of us have been busy this past week digging ourselves out of the snow. It has been estimated that over two feet have fallen here in the past few days. It has added an extra burden to farmers who have to dig feed out from under the snow for their cattle. Much of the feed is covered entirely and cattle stand helplessly by till it is hauled to them. Many fields have been trampled and corn, so that the stock could be turned in as in ordinary times, especially October which we usually think of as Indian summer. We are hoping for a looking forward to being able to get the feed situation in hand, but old-timers tell us we'll be doing the threshing next spring.

Quite a number from this district ventured out on the slippery highway and drifted roads to see their royal highnesses in Calgary last Thursday. All returned home safely and declared the trip very much worth the effort and something never to be forgotten.

Howard Robertson was Westcott Boy Scout's representative at the Corral, where he enjoyed the chuck wagon dinner besides seeing the show.

Mrs. Robert McFarlane accompanied her sister as far as Calgary on her home-ward journey back to her old country last Thursday, the sister having spent the past few months here with the McFarlanes.

Mr. and Mrs. Bernal Reinhardt and daughter Linda were dinner guests at the home of Mr. and Mrs. Scott Sutherland of Elkton last Sunday.

Miss Deloyce Goelce came home over the week-end, but was not able to get out because of drifted roads so she spent the time visiting with her grandmother in Didsbury. She also visited with some Joyce sister, a former class-mate, having been a dinner guest at the Bair home. Both girls celebrated their birthdays the same day and are the same age.

We hear that Mr. and Mrs. Nevada and Victor will soon be leaving for their new home near Crossfield.

## Funeral Services Held Monday For R.E. Lucas

Robert Edward Lucas, 73 died in the Didsbury hospital on Friday, October 19th after being admitted a few days earlier following a stroke.

Born at Watford, Ontario, Mr. Lucas came to Didsbury where he homesteaded in 1906. He retired from farming two years ago and moved into town to reside.

Surviving are five sons, Fred of Olds, and Willis, Robert, Alex and Kenneth of Calgary; three daughters, Mrs. Hiram Taylor, Didsbury; Mrs. Annie Eggleston, Calgary; and Mrs. C. Jahnke, Olds; a sister, Mrs. Georgina Blain, Didsbury; a brother in Ontario, and 13 grandchildren.

Funeral services were conducted from Knox United Church, Didsbury on Monday, October 22, at 2:00 p.m. with Rev. C. C. Armstrong officiating. Didsbury Funeral Home was in charge of arrangements and burial followed in the Didsbury cemetery.

## Town Council To Order New Fire Equipment

The franchise to supply natural gas for Didsbury was discussed at the meeting of the Council of the Town of Didsbury on Monday, October 15, but was tabled until the first meeting in November.

A building permit was issued to O. J. Arthur to move a house in town near the Mrs. Boles' residence.

A communication from the Board of Public Utility Commissioners approved the new light contract between the Town and Calgary Power Ltd.

F.L. Evans was appointed enumerator for the supplementary Voters list for the 1952 Town elections. The drilling of a second well to provide water for the town system in case of an emergency, was discussed by council and it was decided to proceed with drilling this year. The town will place an order for 500 feet of 8-inch casing for the new well.

The matter of additional fire equipment was brought before Council and the necessary equipment is to be ordered immediately.

NEW UNIFORMS. No longer will the Canadian soldier have to struggle to pull a snug-fitting jumper over his head when trousers will also have pockets in the trousers. The new uniforms will make their appearance next month. Leading Soldier Butler is shown trying the zipper on his jacket.

## FAREWELL FOR EVANS

About 40 guests met at the home of Mr. and Mrs. Bert Prevost this Sunday evening last to bid farewell to Mr. and Mrs. Trev Evans who expect to leave this weekend to reside in Victoria, B.C.

The evening was spent in dancing, and on behalf of those present Mr. E. T. Wiggins presented the honored guests with a purse of money.

Lunch was served at the close of the gathering and best wishes were extended to Mr. and Mrs. Evans in their new home.

## ON CIVIL DEFENCE

(By Mrs. H. Lynch-Staunton)

**ARTICLE III**  
The fire damage caused in parts of Germany during World War II was so extensive that from it we can learn the all-important lesson of what fire can do once it has been allowed to get out of hand. In the event of a future general war, the best insurance against that kind of thing happening is for the abnormally adult population to be thoroughly trained in elementary fire-fighting.

In modern warfare, fires are caused by the following agents:

1. The heat flash from an atomic explosion.  
2. Secondary fires caused by the blast of any explosive missile using stoves, damaging electrical wiring, breaking gas pipes, etc.

3. Incendiary bombs.  
An attack using any of these weapons could cause enough fires to overwhelm the fire services in the area affected.

There are numerous records in Britain of cases where trained householders tackled fires in their homes promptly, and put them out without calling on the fire services. The fire departments could then concentrate on larger fires where their efforts were essential.

In the event of another general war it is imperative that civilians know how to deal, promptly, with small fires.

## Do Your Buying In Didsbury...

Have you ever stopped to think that every dollar you spend in Didsbury helps to build Didsbury up—helps make it a better town to live in and to do business in?

Your local business men play a large part in the affairs of the community. They contribute a large share of the local taxes and lend support to every community enterprise. They endeavor to serve you to the best of their ability and as their businesses grow so grows the town.

It is the patronage of Didsbury and district customers that enables them to constantly strive to extend the range of services and merchandise they offer. By spending your dollars with your local merchants you not only receive friendly, satisfactory service—you help make your community better in every way.

### EAST NOTES

The Jutland school will hold a Halloween program and box social at the Lone Pine Hall this Friday. Everybody welcome.

Mr. and Mrs. Ciendennan and son, Leslie and Bill Schumaker, and Miss Jenny Panell, all of Calgary, were guests at the Pete Schumaker home over the weekend.

The next Lone Pine W.I. meeting will be held in Didsbury at the home of Mrs. Ruth Eckel.

Mr. and Mrs. Walter McCulloch were Saturday evening callers on Mr. and Mrs. J. Underhay.

The second oil well to be drilled in this district will be on the Wm. McCulloch farm. Some of the machinery and derrick have already been moved in, and Mr. Wm. Shultz is there with his grader to grade the road into the field.

Ray Cipperley, who is in the Air Force, left last week for Edmonton where he was to catch a plane for the east. Because of bad flying weather all planes were grounded. He returned here to visit with his relatives until Friday when he plans to leave for Montreal.

Mr. and Mrs. P. Schumaker were Sunday evening guests with Mr. and Mrs. Walter McCulloch.

It looks as if the weather man is going to give us a break. Boy, talk about snow! The stubble fields are just full of snow and in places it is so deep that the fences are just peeking through.

The girl's Club meeting was postponed on account of the roads being drifted in.

Best wishes are extended to Mrs. Jim McCulloch who underwent an operation a short time ago.

Best wishes are extended to Howard Pross who wrenched his ankle. We are sorry to hear that Mr. Bert Pross is not so well and is a patient in the Didsbury hospital. Best wishes are extended to him also from his neighbours and friends from the east.

Gloria Schumaker spent Monday night with Beverly Thompson.

## WEDDINGS

### GOLE-HARRISON

A very pretty wedding took place Saturday, October 20, at 3:00 p.m., in the Crossfield United Church when Eunice Janet, only daughter of Mr. and Mrs. Jack Harrison of Crossfield, was united in marriage to Mr. Stanley George Gole, son of Mr. and Mrs. A. S. Gole of Didsbury, Rev. W. Hall officiated.

The bride and groom wore matching twin suits of peck and peck, and the bride wore a corsage of red roses.

Miss Ruth Gole, sister of the groom, was bridesmaid, and her corsage was of pink roses.

Mr. Bryan Summers of Stettler was best man, and the bridesmaid and groomsmen were matching suits of midnight blue gabardine.

Mrs. Charney of Crossfield presided at the organ.

The reception followed at the home of the bride's parents.

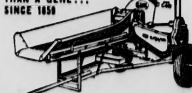

The bride changed to a grey suit topped by a fur coat for her going away attire, and the happy couple left to spend their honeymoon at points in southern Alberta. On their return they will reside in Didsbury.

## READ SIGNS OF LIFE

### A SAFE DRIVER IN AN UNSAFE CAR... CANCEL EACH OTHER OUT

Driving without proper lights, windshield wiper, and defroster is as annoying as reading fine print with dirty glasses, and can be definitely more deadly.

The maintenance of Automotive Safety Equipment in A-1 condition is more important than ever in winter driving. The use of chains when travelling on icy highways, well-aimed headlights, a windshield wiper that actually wipes clean instead of merely smearing a narrow peep-hole, and an efficient defroster is your assurance of safer driving in winter.

ALWAYS REMEMBER... A SAFE DRIVER IN AN UNSAFE CAR CANCEL EACH OTHER OUT

**OUTWARD BOUND**

Farm boys are still deserting the fields and orchards for better-paying jobs in manufacturing plants, but now there's a new twist to this rural-to-urban process. Today, more and more heads of industry are looking in the other direction—out beyond the city limits—for a spot to establish their newest branch.

This decentralization of industry is reversing a trend of many years' standing. Before the Second World War, an expanding company almost invariably chose a city as the site of its new plant, for obvious economic reasons. But now that those reasons are no longer as compelling as they once were, the shift is back to the country.

The small town of today is, for the company and its employees, no longer the small town of half a century ago. Good roads, modern automobiles, efficient sewage systems, radio and the host of other facilities now accepted as standard, make the small town just as convenient as the big city for businesses and people. And in many ways, much more attractive. The rents are lower, the air is fresher, the hustle and bustle of the metropolis is cut to a tolerable pace, the noise level is easier on the nerves, it's easier to get to and from work, and the well publicized dangers of the atom bomb are minimized.

Industry's back-to-the-country movement seems to be common to both Canada and the United States. South of the border, according to a recent survey of 148 major manufacturing firms, nearly two-thirds of the postwar building has been in small towns. In Ontario, Canada's largest industrial province, 77 new branch plants were established in 1950 and of these 51 were located well outside the metropolitan area of Greater Toronto.

As the threat of atomic warfare intensifies, this trend toward decentralization could easily speed up. In any circumstances—regardless of A-bombs—the country will always be a pleasant place to live in than those stone and concrete jungles where the out-stretched hand is not a gesture of welcome but a sign that a tip is expected, and where the blare of a car horn has just one meaning: "Move, bud, you're in my way!"

**GERMAN WHEAT PURCHASE**

The Canadian Wheat Board has confirmed reports that about six million bushels of low grade wheat were sold to West Germany. The grades involved are mainly number

5 and 6.

The Board's International Wheat Agreement price for number 5 wheat was \$1.65 a bushel and for number 6 \$1.50. Open export prices were about 7c higher.

**HOW ALBERTA WAS NAMED**

Alberta was named by the Marquis of Lorne, who was Governor-General of Canada at the time the province came into being. It was named Alberta after H.R.H. Princess Louise Caroline Alberta, fourth daughter of Queen Victoria, wife of the Marquis; and she was, doubtless, named after her father the Prince Consort. The Marquis of Lorne in his "Memories of Canada and Scotland" says:

"In token of the love which thou hast shown for this wide land of freedom, I have named a province vast and for its beauty named, by thy dear name to be hereafter known. Alberta shall it be. Her fountains thrown from Alps unto three oceans, to all men shall vaunt her loveliness even now; and when each little hamlet to a city grown, and numberless as blades of prairie grass or the thick leaves in distance forest bower great people hear the giant currents pass. Still shall the waters, bringing wealth and power, speak the loved name—the land of silver springs."

Worthy the daughter of our English Kings."

**FISH STORY FEATURED IN McLEAN'S MAGAZINE**

McLean's Magazine recently carried the following story in its special feature page devoted to unusual happenings throughout the nation. It's quite a tale and we pass it on:

"One scorching day in July an Armstrong, B.C., farmer walked along the ditch he had dug across the upper end of his corn field to open the flume and let the water in. He swung it open, then, in the rush of water, he saw an eighteen inch spawning salmon."

"The salmon flopped along the dike ahead of the water, across the corn with the farmer in pursuit. He caught it once but it spilled out of his hands into the dust. Finally it was exhausted and he put it out of its misery with a stone."

"He stood holding the fish in his hands, then turned and walked slowly toward the house, knowing no one would believe his story even though he could produce the fish."

Fur coats are made this way, I think.

The take the furs and dye them; but first they have to skin the mink. Then they skin the men who buy them."

**Be Proud Of Your Business**

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel—proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of businesses. Moreover, people as a general rule shop where they are invited.

**88,600 HORSE POWER***... from the Valley of the Spray*

**CALGARY** Power's 62,000 H.P. Spray Hydro Plant goes into operation this week. It is the first of three power plants in the Spray Lakes project, which when completed will have a total capacity of 88,600 H.P.

This new electrical energy will be available not only to the customers served by Calgary Power's 5,000-mile system, but will also add to the total power available to Alberta's integrated power network of interconnected cities and systems. It will assure dependable power for continued expansion of rural electrification, for intensified development of Alberta's oil, for new mills, mines and factories, and for the thousands of homes being built in the villages, towns and cities throughout Alberta.

The placing in operation of this plant is another attestation of Calgary Power's faith in Alberta's future; and is part of the Company's current \$30,000,000 expansion program which is being carried out at no cost to the taxpayers.

**SPROUTED AND FROZEN GRAIN FOR LIVESTOCK**

Contrary to the belief of some farmers, frozen and sprouted grains are not poisonous to livestock. Dr. F. Whiting, livestock nutrition specialist of the Dominion Experimental Station, Lethbridge, suggests that this idea may have arisen from introducing too much sprouted or frozen wheat into the ration at one time, with resulting death losses. Wheat, whether sprouted, frozen or normal, is a very heavy feed, and livestock must be accustomed to it gradually.

The feed value of frozen or sprouted grain will vary with its quality, says Dr. Whiting. Slightly frozen or slightly sprouted grain will equal in feed value to normal grain for all classes of livestock. Grain that is badly frozen or badly sprouted will have lighter bushel weight and a higher proportion of fibre. It will still make good feed for sheep and cattle, but will be less valuable for poultry and swine. Poultry and swine do not make efficient use of fibrous feeds.

Dr. Whiting warns against feeding moldy or heated grain or hay to livestock. Most molds that grow in hay that has been put in the stack before being properly dried, or grain that has been rained on in the swath or threshed before dry, are not harmful. Some are, however, and it is impossible to know by its appearance whether or not moldy feed is harmful.

Moldy feeds should not be fed unless feed is in very short supply, says Dr. Whiting. If slightly molded feed has to be fed it should be given to the stock in such a way that they can take out the good hay and leave the badly molded parts. The moldy hay should never be put through a feed chopper, since stock are not then able to sort it out. Stock fed moldy or heated feed should be watched closely. If they start to go off feed, the feeding of moldy hay or grain should be discontinued.

**KING SAFECRACKER OF U.S. SEEKS OLD AGE PENSION**

The man who claims that he is "the former king of the safecrackers of the United States" is in Vancouver and says he will apply for a \$40-a-month Canadian old age pension.

Herbert Emerson Wilson, former minister who turned into crime, told reporters "I'm going along the line of least resistance. I'm just over 70 and taking things easy."

Born in Pembroke, Ontario, Wilson is seeking the pension under terms of new legislation granting \$40 a month to all Canadians over 70 without means test.

That doesn't mean that the man who allegedly looted U.S. vaults of an estimated \$16,000,000 during the 1920s is broke. He still has a comfortable income from movie rights to his life story.

Married this year to the former Amelia Vancoy of New Westminster, Wilson has been living the life of Riley, touring B.C. with his wife in his motor caravan.

This year they plan to tour Mexico if U.S. authorities will clear him at the border. He was deported to Canada after serving 12 years in San Quentin for his part in the multi-million dollar looting in virtually every major American city.

**EXTENSIVE HAY DAMAGE**

Wet weather in August and early September ruined many thousands of tons of hay in southern Alberta. The Market Examiner estimates that 40 per cent of the baled and stacked hay has rotted. There is, however, an abundance of green feed.

Cheese was discovered by accident earlier than 2,000 B.C., when Kanahah, an Arabian merchant found that the rennet in a dried, sheep's stomach canteen in which he had stored milk for a journey, had turned the milk into cheese curds.

Each summer the "Trail Riders of the Canadian Rockies," whose world-wide membership is open to "dudes" of every race, colour and creed, gather amid the majesty of snow-capped peaks to ride the alpine trails and to camp in the valleys of one of Canada's loveliest playgrounds.

Created and signed by The House of Seagram, this advertisement, with appropriate copy for foreign lands, is appearing in magazines and newspapers printed in various languages and circulated throughout the world.

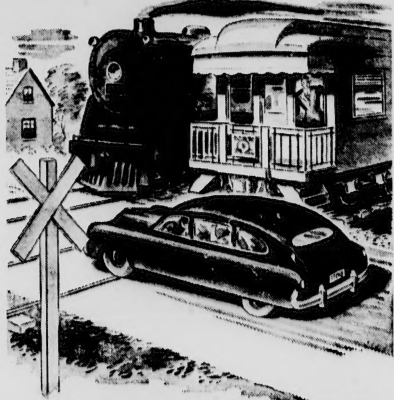

**Seagram TELLS THE WORLD ABOUT Canada**

This advertisement was designed by The House of Seagram to tell the people of other lands about Canada and things exclusively Canadian.

Many people in Latin America, Asia, Europe and other parts of the world are not fully aware of the richness of Canada's natural resources, wild life, scenic beauty and cultural traditions. The more the

peoples of other lands know about our country, the greater will be their interest in Canada and Canadian products.

The House of Seagram feels that the horizon of industry does not terminate at the boundary of its plants; it has a broader horizon, a farther view—a view dedicated to the development of Canada's stature in every land of the globe.

## LOSING BY DEFAULT?

Disturbing things have been said recently by men who have returned from the front lines in Korea—independent men, men who have had years of training in gathering facts and reporting them accurately.

One of them was Bill Ross, veteran correspondent for the Canadian Press. He declared that both sides seemed to be more concerned with making propaganda than in making peace. He added: "This is a waste of time for both. We will never be able to affect the picture the Communists will give their own people of the negotiations, and might as well accept it."

"The pity is that we seem to have stooped to trying to play their game."

"The real battle, for men's souls, is already on. In a sense we have already lost it to the Communists in Korea, by default, despite our victories in the field."

Are we in danger of losing the war for men's souls? If so, why? Would it be because we have been content to think that military power and economic strength were enough?

The Communists have no such illusions. They know that it is the ideas in which men believe that determine how they live, and fight—and die. Russia controls China today not because of great military exertion, but because for 25 years men trained in the Communist ideology have been winning the Chinese to their ideas.

Would our troops be better ambassadors of Democracy's Big Idea if we at home returned to practicing as well as preaching it—the idea that God has dominion from sea to sea, in the home and at the workbench?

There may still be time to win the battle for men's souls. If we add this idea to our exports of men and materials for war. Let us not lose this battle by default!

## SERVICE COMES FIRST

Profits, while important and vital if a business is to continue and expand, are only a few of the factors that go to make up a successful company. Another and the most important one is service to customers.

Right now in this country there are dozens of concerns that could export every pound of production to the United States and at higher prices than they are getting from Canadian buyers. And they could have been doing this for a considerable time. But that would mean abandoning customers who have been steady buyers throughout the years and who will continue to be steady buyers in the years to come. Permanent and successful business is not built on that short-sighted basis.

## CANADIAN IN INTERNATIONAL BADMINTON TOURNAMENT

Champion badminton player R.E. Birch who captained the first Canadian Thomas Cup team will play in the 6-day International Invitation tournament to be held in Kelvin Hall, Glasgow, in November.

## YOUR PERSONAL PENSION PLAN

PROVIDED THROUGH  
The Alberta Government  
Retirement Annuities Act  
HERE ARE MORE QUESTIONS  
AND ANSWERS ON

## ALBERTA GOVERNMENT ANNUITIES

QUESTION: In the event of unforeseen need of funds prior to my reaching the retirement age, may I withdraw my deposit?

ANSWER: Yes. A depositor may withdraw all, or any part of his account which has been on deposit for at least five years but will forfeit all interest on any funds withdrawn.

QUESTION: In the event of my death, will my beneficiaries receive any benefit?

ANSWER: Yes. The total amount of all deposits together with interest at 3% per annum, simple interest, will be paid to the estate.

QUESTION: May a depositor at time of his retirement obtain an annuity payable to both himself and wife?

ANSWER: Yes. At any time after reaching 60 years of age a depositor may obtain an annuity, and may select:

- (a) a single life annuity
- (b) a joint life annuity
- (c) a guaranteed term annuity for a period of not less than five years.

## THE MAGIC EYE

It was the first vaudeville performance the old woman had ever seen and she was particularly excited over the feats of the magician. But when he covered a newspaper with a heavy flannel cloth and read the printing through it she grew a little nervous. He then doubled the cloth and again read the letters accurately. This was more than she could stand and, rising in her seat, she said: "I'm goin' home. This ain't no place for a lady in a thin calico dress!"

## CANADA HOLDS HOTTEST SQUARE MILE IN THE WORLD

The key to Canada's economic future in the atomic age may lie buried in a mist-shrouded lakeland in Northern Saskatchewan where recent uranium strikes have made this area the hottest square mile in the world.

B. T. Richardson, noted Canadian journalist, tells about the discovery and what it can mean to Canada in an article in the current issue of MacLean's Magazine.

Richardson, who flew to the scene of the rich strike where tens of millions of dollars worth of uranium are believed to lie under the rock writes:

"In the twisted precambrian humpland of rock and water that makes a lonely wilderness of north-

ern Saskatchewan there are two little ponds of lakes, one called Beaveridge and the other called Ace, which are destined to become household names."

"Here the government-controlled Ace Mines promises already to double or triple Canada's uranium output. It is destined to eclipse Eldorado, the original uranium mine on Great Bear Lake, and it is expected to rank second only to the great Shinkolobwe mine on the panhandle of the Belgian Congo."

"It will effect Canada's industrial, political and military future as has no single geological strike in the country's history. It will produce enough ore to put this country in the forefront of the coming atomic revolution. And it will pose on us one mighty problem: now that we have the second largest potential source of uranium on the globe, perhaps even the largest, what are we going to do with it? Shall we continue simply to ship the raw ore to the United States? Or shall we begin to process it here for the atomic furnaces that an industrial country in the new age must have?"

"Neither the recent discoveries of oil in Alberta, the development of iron mines in Labrador-Quebec, nor the building of the St. Lawrence Seaway will in the end mean as much."

And up there in the hinterland a new boom town will be built. Its name: Uranium City, Sask.

## LOST BUSINESS

At the present rate, Canadians will soon be spending far more in the United States than the Americans will spend in Canada. Only a few years ago it was very much the other way.

Canadians not only go to the U.S. to see the "sights" but for a large growing number the trip across the border is primarily a shopping expedition, and high Canadian taxes have much to do with it.

This is especially true of things which in Canada carry heavy sales, luxury or excise taxes. Cigarettes, for example, cost about half as much in the U.S. One popular brand of color film that sells for over \$3 in Canada can be bought in Boston, Buffalo, Detroit, St. Paul or Seattle for \$3.50 or less. On many electrical appliances there is a corresponding saving.

These purchases add up to a huge loss for Canadian business. Practically all the goods bought are available in Canada though at higher prices. And aside possibly from some English china and fancy wool blankets there is no American buying here to balance it. Instead, knowing that Canadian prices are higher, a great many experienced Americans actually stock up with smokes, films, and the like, before they cross into Canada. So Canadian business and the Canadian Government lose both ways.

Here's why a further  
quarter of a billion dollars  
is being invested by  
Aluminum Company of Canada in

# "OPERATION ALUMINUM"

*Kitimat*

**IN BRITISH COLUMBIA**

Project as planned calls for expenditure in the first stage of \$200 million; the final stage when completed will increase this to \$450 million. First stage to be completed 1954.

**KITIMAT SMELTER**

Capacity one billion pounds of aluminum a year.

Lake, above Nechako River Dam, 500 square miles in area.

Kemano powerhouse, to be built 1/4 mile inside mountain. Eventual capacity 2,000,000 h.p.

*Peribonka*

**IN QUEBEC**

CHUTE-DU-DIABLE  
250,000 h.p. installation. Begun autumn, 1950. Will be in operation May 1952.

CHUTE-A-LA-SAVANNE  
250,000 h.p. installation. Begun summer, 1951. To be completed in 1953.

ISLE MALIGNE  
Smelter. Output doubled. Construction underway.

BEAUHARNOIS  
Smelter. Re-opened April, 1951.

Aluminum is being put to so many uses these days that Canada's aluminum industry, begun at Shawinigan Falls in 1900, and already grown to giant size, is embarked on another vast expansion program.

More dams, powerhouses, smelting facilities in Quebec... a whole new operation in British Columbia... these great forward strides will further step up Canada's aluminum capacity to a total of more than half a million tons a year.

Today the names "Peribonka" and "Kitimat" mean nothing to most Canadians. Right now they head blueprints — blueprints of work in the planning stage, of work in progress with thousands of men already on the job.

"Shawinigan", "Shipshaw" and "Arvida" were new names, too, many years ago. Today they are living reminders to Canadians — and to the world — that Alcan has grown, developing this country's resources so that now it produces a quarter of the world's aluminum supply.

On the Peribonka River in Quebec, Alcan is harnessing two waterfalls — Chute-du-Diable and Chute-a-la-Savanne. These will provide hydro-electric power for a big addition to aluminum output and additional power resources for the Saguenay District.

Meanwhile, up east 400 miles from Vancouver, a whole new aluminum operation is planned. Where now stands the tiny Indian village of Kitimat, a whole new town will be built; here Alcan will construct a huge smelter. At Kemano, 50 miles away, Alcan will build a powerhouse inside a mountain; a ten-mile tunnel through this mountain will carry water from a chain of lakes down a 2,600 foot drop to develop an eventual 2,000,000 h.p. capacity.

This "Operation Aluminum" means jobs for thousands of Canadians. It means additional millions of dollars coming into this country from abroad, for much of this aluminum will be exported.

It means additional low-cost aluminum for Canada's own use — metal which a thousand plants throughout the country use to fashion everything from utensils and toys to airplanes and bridges.

"Operation Aluminum" is a big thing for Canadians and for the free democratic world. And it means a further line of defence against aggression. And it means a busier, more prosperous country in which to live and work.

 Edmonton visitors for several days  
 last week.

Mr. and Mrs. Carl Meyer and  
 family were Sunday visitors with  
 Mr. and Mrs. E. A. Bartz.

Mrs. Henning Fischer is a patient  
 in the Didsbury hospital.

Mr. and Mrs. H. W. Foltman had  
 a view of the Royal cars in Dids-  
 bury on Monday.

**ZELLA NEWS NOTES**

Mr. and Mrs. Arthur Worthington  
 and Dennis Worthington motored to  
 Calgary on Thursday to see the  
 Royal couple, Princess Elizabeth  
 and the Duke of Edinburgh.

Miss Owens and the pupils extend  
 a cordial invitation to one and all  
 to attend their Halloween party at  
 the school Wednesday evening, Oc-  
 tober 31. There will be an evening  
 packed full of fun. Don't overlook  
 the pie and ice cream to be served  
 at lunch time.

Mr. and Mrs. Wilbur Jahnke and  
 Mrs. Emma Jahnke returned Satur-  
 day after spending the past two  
 weeks touring the States. They  
 called on relatives in Iowa and  
 Minnesota and report excessive  
 moisture conditions prevalent there  
 also, with much of the corn and  
 bean harvest still to be completed.  
 Mrs. J. Leavood left Sunday to  
 attend the home of Mr. and Mrs. E.  
 Lowrie on Thursday, October 25.

**WEST NOTES**

(Last Week)

The Elton Willing Workers met  
 at the home of Mrs. P. Luft on Wed-  
 nesday, October 10, with nine mem-  
 bers present. A quilt was tied for  
 one of the members. It was decided  
 to hold a social evening in the  
 school on Friday, Nov. 16, to raise  
 funds for treats for the children at  
 Christmas time. There will be  
 articles to sell that are to be dona-  
 ted by members, and a fish pond for  
 the kiddies. Bingo will be played  
 and a lunch will be served with no  
 admittance charge.

The next meeting will be held at  
 the home of Mrs. Gilles, Sr., on  
 Wednesday, November 14.

Mrs. J. Leavood left Sunday to  
 spend a few weeks with her daugh-  
 ter, Mrs. Tryonak at Lethbridge.

Mr. Peterson was in the district  
 on Thursday. He was blood-testing  
 chickens.

Mr. and Mrs. Harvey Hosegood  
 visited with Mr. and Mrs. O. Thomp-  
 son on Sunday.

Many people had trouble getting  
 home on Sunday evening, and some  
 never did. When the snow storm  
 reached blizzard velocity, cars be-  
 came stalled on the south river hill  
 and those without chains couldn't  
 make it.

Mrs. Arnold Hodg spent Sunday  
 in Cremona with Mrs. Rawleigh.  
 Snow once more blankets the  
 countryside and we think it is here  
 to stay.

**M.V.B.C. NEWS**

President Hoskins visited some  
 nearby points on Friday during  
 which time he contacted several  
 students who will be enrolling in  
 the College. Because of the condi-  
 tion of the roads he was unable to  
 go as far north as he had hoped.

More dishes! But they are neces-  
 sary and most desirable when we  
 realize that through those pipes  
 the heat will be conveyed to the  
 tubercule. The young men, organ-  
 ized efficiently by Mr. Waldin, dean  
 of men, worked in two shifts all  
 day Saturday, and Mr. Dyck and  
 Mr. Eby again gave valuable assis-  
 tance in directing the procedure. We  
 hope this building will be available  
 for Youth for Christ meetings soon  
 to come up.

Whilst wedding festivities were in  
 progress in the main building of  
 the College, and the dining room  
 was inaccessible to students, a  
 party for the evening was arranged  
 under the leadership of Mr. Charles  
 Matson, Student Body President.  
 Mr. and Mrs. Norman Schaffer  
 kindly allowed two student cooks  
 to prepare weaners and buns in  
 their apartment and all of the  
 young people met in two of the  
 class rooms for a very enjoyable  
 gathering. What with food and  
 games they reported a good time,  
 and the evening came to a conclu-  
 sion with devotions in which a large  
 number of students took part.

The Faculty and students did ap-  
 preciate greatly the delightful  
 contribution of friends who sent in  
 twenty chickens during the last  
 week. Some of the students had  
 quite a gay time studying the anat-  
 omy of these creatures as they pre-  
 pared them for use in the kitchen.

A number of Faculty members  
 will attend the Ministerial Con-  
 vention of the United Missionary Church  
 in Castor on Wednesday, October  
 24. Rev. Annett, Mr. Waldin, Mrs.  
 Sider and Miss Eby have part in  
 this program.

More students will be coming into  
 the dormitories during the next few  
 days. They are late we know, but  
 with harvest conditions so difficult,  
 these young people have put forth  
 the best efforts possible under very  
 trying and difficult circumstances.

Look for information concerning  
 Open House elsewhere in this edi-  
 tion of The Pioneer, and please  
 come.

A new blasting technique, known  
 in Canada as the silent second blast,  
 results in virtually noiseless explo-  
 sions.

### LITTLE ITEMS OF LOCAL INTEREST

Miss Joyce Buhr of Calgary spent last weekend in town with her parents, Mr. and Mrs. Ed Buhr.

—The Anglican W.A. will hold a Tea, Bazaar and Food Sale on Saturday, November 3, in the Lions' Hall, from 3 to 6 p.m. 43-2c

Mr. Bert Pross, who has been a patient in the Didsbury hospital for the past week, is reported to be progressing favorably.

—Propane Gas for heating and cooking. Be ready for natural gas when it comes. See us, Harold E. Oke, phone 10, Didsbury.

Mrs. Ed Buhr returned last Thursday from Winnipeg where she was called owing to the illness of her mother who passed away after she arrived. Mrs. Buhr remained for her mother's funeral.

—Cuburn W. I. will sponsor a card party at the Coburn School on November 2, at 8 p.m. Door Prize. Admission 50c per person, including lunch. 21c

The regular meeting of the Ladies Auxiliary to the Canadian Legion will be held in the Masonic hall on Thursday, October 25, at 8:30 p.m.

—K. Roy McLean, optometrist, will make his next visit to Didsbury, at the Rosebud Hotel, on Monday, October 29, morning only. Consult in City office, 1014 Greyhound Bldg., daily except Monday. 2c

Although the highway was quite slippery between Didsbury and Calgary last Thursday many local and district people went to Calgary to see Princess Elizabeth and the Duke of Edinburgh. Mayor H. Lynch-Staunton and Mrs. Lynch-Staunton were among the invited guests to the "chuck wagon" dinner in the Stampede Corral.

—When natural gas comes, be ready. Propane gas heating and cooking will convert for only a few cents. See us now, Harold E. Oke, phone 10, Didsbury.

Any Legion member, returned vet. or Auxiliary member wishing to join the cribbage tournament is asked to get in touch with Mr. Joe Freeman or Mrs. Harvey Gilrrie.

The wedding of Mr. Donald Ennis of Didsbury, and Miss Iris Wells of Penhold took place in Red Deer Wednesday, October 17, a.m. and Mrs. Ennis will make their home in Didsbury.

Edward Oke, Bob Bussard and Howard Robertson were the Scouts officially attending the reception at the Stampede Corral in Calgary for the Royal Couple.

Dr. Bob Cook, president of Youth For Christ International, will be the first visiting speaker to address the people of this district in the Didsbury Tabernacle with the added comfort of steam heat. You won't want to miss it. Mr. Jarvis of Formosa and Japan will also be present at the provincial rally in the Tabernacle on Monday, October 29.

And Meet Your Friends

Mr. Bryan Summers of Fort Saskatchewan was a visitor over the weekend at the A. S. Gole home.

—The Order of the Eastern Star will hold their annual bazaar, tea and sale of home baking in the Masonic hall on Saturday, November 24.

Ken Esler of the R.C.A.F. who is stationed at Claresholm, spent the weekend with his parents, Mr. and Mrs. Ace Esler.

Mr. and Mrs. Bert Prevost returned home last Wednesday from a motor trip as far as Brandon, Manitoba. They visited in Saskatchewan with Dr. and Mrs. J.A.D. Paul, and the Doctor and Bert got in a little goose shooting.

Mrs. R. E. McDonald and two children returned to Vancouver last week after spending three weeks visiting with her parents, Mr. and Mrs. Jack Topley, and with friends in Edmonton.

Born to Rev. and Mrs. Ralph Jacobson (nee Doris Bouck) of Addis Ababa, Ethiopia, on October 5, a girl.

Miss Beverley Redfield R.N. of Cremona has accepted a position on the staff of the local hospital.

Mrs. W. Wilson was admitted to the Didsbury hospital last week end.

The six cars used to transport Princess Elizabeth and Prince Philip in Calgary were on display at the Didsbury school yard on Monday and there were many interesting spectators.

The Rural Leadership Course to have been held at Banff from October 18 to 23, has been postponed to November 21 to 29. Donald Robertson of Westcott was one of the boys chosen to take the course.

Mr. Wm. Ranton was a Red Deer visitor over the weekend.

Vaughn LeGrand of the R.C.A.F. left Sunday for Eastern Canada after spending a month leave with his parents, Mr. and Mrs. Les LeGrand, and with the Shannon construction crew at Drumheller.

**STRAW HELPS PREVENT DRIFTS**

Experiments have shown straw to be a strong anti-erosion agent, states the federal department of agriculture.

The department urges farmers to use all surplus straw, old hay, and other crop residues as a protection against soil drifting.

Recent experiments showed that where two tons of straw were discarded on an acre of land, there was an almost complete elimination of erosion. On an adjacent acre, where the land was left bare, the erosion loss amounted to 21 tons of soil.

FOR RENT—5 room cottage, basement, furnace, eastern. Phone 18, Didsbury. 1p

### MELVIN NEWS

The October meeting of the Melvin W.I. was held on Wednesday evening of last week at the home of Mrs. H. Fischer with nine members in attendance.

One of the main issues of the evening was the questionnaire sent out by the Constituency Handicraft convener. Handicraft work for the year as suggested in the Home and Country was also discussed in detail.

Mrs. L. Fischer read a delightful article on "Friendship" for the meeting's short topic.

Instead of the bit of fun, members enjoyed a sing-song which included the W.I. slogan and parodies.

The hostess served a delicious lunch at the close of the meeting.

### SENIOR HOCKEY MEETING

There will be a senior hockey meeting in the Lions' Hall on Monday, October 29, at 8:00 p.m. All interested please attend.

### EVERYTHING TO GAIN AND NOTHING TO LOSE

Book Your Orders Now for Spring Delivery It's Like Putting Money in the Bank

Here is a deal that is bound to appeal to progressive business minded farmers who plan ahead.

1. You book your order for Marvelube Motor Oil and Gear Oil and Greases before December 31st.

2. The lubricants are delivered between February 1st and April 30th.

3. If prices rise between now and spring delivery, you pay today's price only. If prices drop you get the full benefit of the lower price.
